BERRY  ALLOC

For those
"slow living"
moments.

Live slow, take life one step at a time.

Ready to be inspired?

Enjoy the simplicity and elegance of mother nature by drawing it inside.

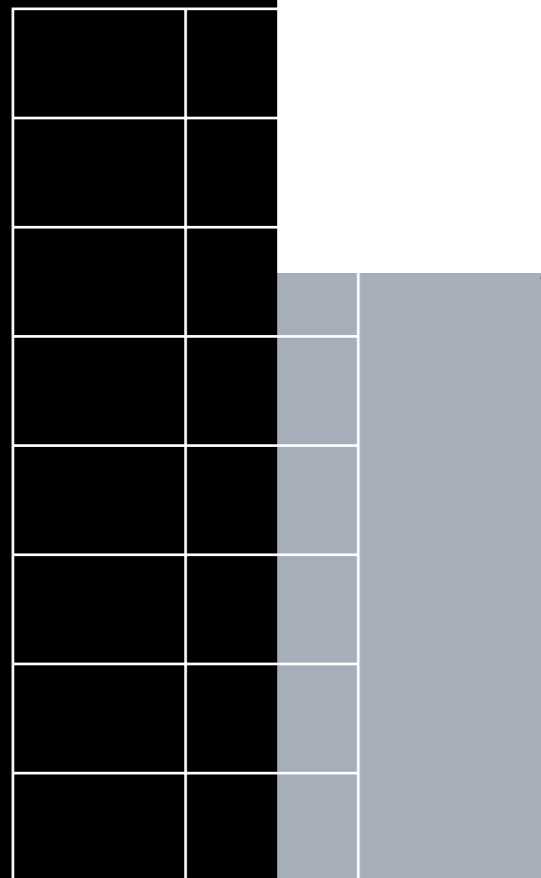

Erase the boundaries between inside and outside.

It doesn't matter if you like traditional, sober, elegant, or cosy designs. You'll find the perfect wall panel in our wide range of natural-looking designs.

Designed to create an atmosphere of warmth and authenticity, our wall panels are made for those busy, chaotic moments of families with little ones. For the kids splashing around and making a mess. For early morning routines and for late night hot showers. For you.

Live life your way. Our walls will blend right in.

relax, it's BerryAlloc

Why choose Walls?

Nothing beats the feeling of home.

Home is what you make it. That's why our collection of wall panels has a design for all kinds of people and all kinds of lifestyles. Because we've all made life our own.

Choose from an extensive range of natural-looking decors, surprising designs and different tile sizes to give your space a new look and feel.

So if you're on the lookout for a versatile, durable, and easy way to renew your kitchen or bathroom interior... Look no further.

**Make a mess
of your kitchen.
Or turn your
bathroom into a
private wellness.
Our walls won't
mind.**

Go for walls and enjoy ...

Lifetime warranty

Just relax, because we promise you a lifetime warranty for every BerryAlloc wall panel in your home.

Easy installation

Glued or interlocking, our wall panels combine ease of installation with ease of maintenance. Whether it's your first time or your daily occupation.

Waterproof

Our Wall & Water panels are waterproof and will look perfect in your bathroom. Splash around all you want. You can even shower directly on the wall.

UV-resistant

Let the sun in and don't worry about discolouring your walls. All our wall panels are UV-resistant. Their design won't change over time.

Environmentally conscious

We take environmental challenges seriously and aim to live up to the demands set for sustainable development. That's why our products are produced, used, recycled, and destroyed without damage to the natural environment.

**lifetime
warranty**

/ wall&water.

Our walls fit your interior,
your habits, your home.

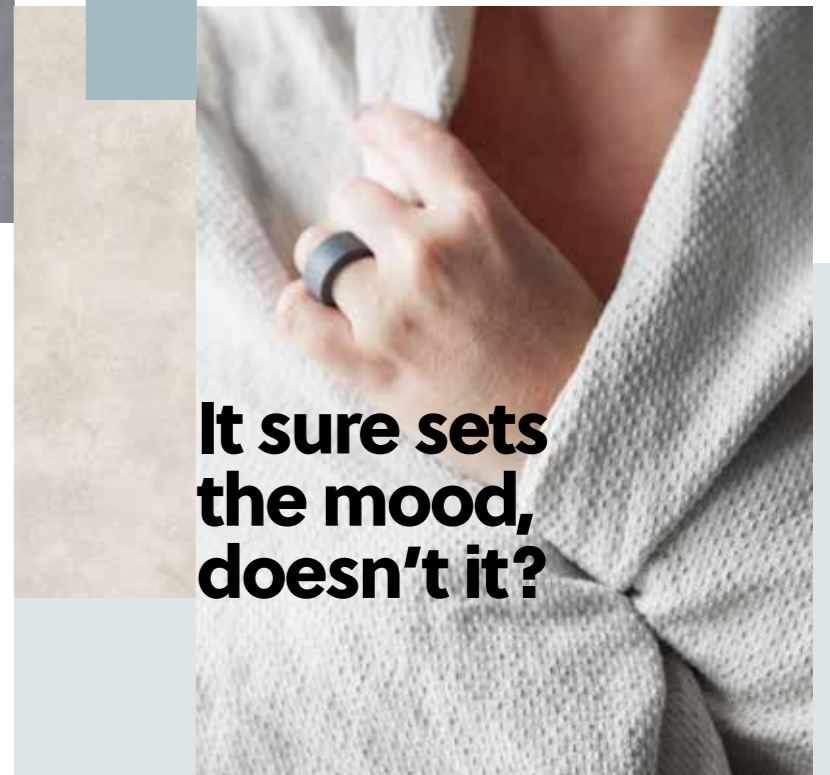

**The choice is yours.
Our collection has a
design that you will love.**

Breathe in the charm of the North.

Just relax and create
a perfect sense of
well-being with
Concrete Nature.

**It sure sets
the mood,
doesn't it?**

The powdery shades of Black Velvet.

The powdery shades of black give Black Velvet its distinct charcoal look. Which, in turn, gives your bathroom a masculine touch of understated elegance. Fill up your bathtub and experience absolute privacy while soaking next to the flickering light of a lone candle.

For those who like a sense of peace and quiet.

Our new Sandstone wall is timeless in style, quietly understated, simple yet sophisticated.

A timeless appeal.

The brushed surface creates a certain balance and order.

Clean, crisp lines with a pared-down black and white design.

**Start your
day with a
fresh smile.**

We treat our marble
extra softly, which
makes it rich in details
and keeps it more
natural.

Bring in some
beauty from outside.
Every single day.

**Just stop and
look around
from time
to time.**

**Our designs are
inspired by nature.**

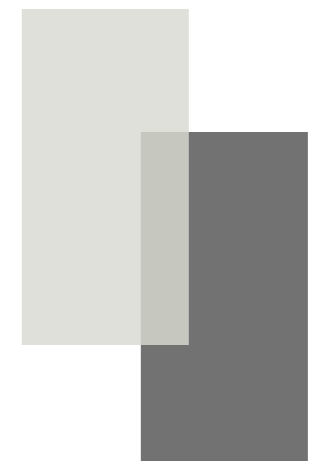

Combine different natural elements for a mood-boosting look and feel.

Use Stromboli Marble to make a bold statement.

**Did you know?
Most colours used
in Scandinavian
interiors are
monochrome.**

Are you a monochrome traditionalist? Then you know shiny, crisp, and even clinical is the name of the game.

**It's about
the simple
things in life.**

Your bathroom is one of the few places you can call your sanctuary. Royal Oak has the perfect natural look to soak up that zen feeling.

Use colour to create an atmosphere of warmth, well-being, and cosiness. That's all you need to feel at peace and enjoy the simple pleasures. The feeling of soap on smooth skin, the steam of a hot shower wrapping your body like a blanket...

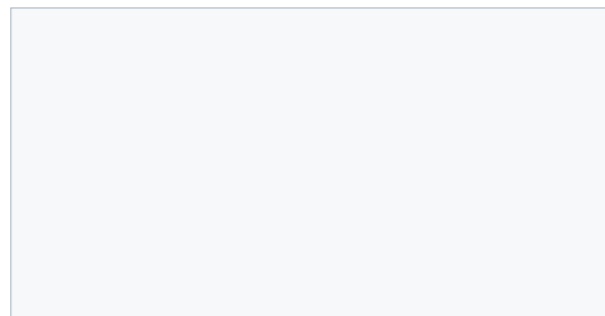

Oh, nostalgia!

Federa has that retro feeling that takes you right back to your childhood – cosy summers at grandma’s cabin and lots of happy, carefree memories.

/ kitchen wall.

Our Kitchen Wall collection – made from durable, compact laminate – can withstand heat, water, and even direct splashes of boiling water.

**The hardest part?
Choosing your design.**

**It's all just
so wonderfully
simple.**

You can easily and quickly install the panels yourself, without making a big mess. They are also ideal for renovations. All you need is some BerryAlloc adhesive and a little spare time.

**Wondering whether this
kitchen wall will suit your
interior? Of course it will,
because there's a wall
for every home.
A cosy cottage, a modern
city apartment, or a lively
family place: our walls
will fit in just perfectly.**

fast & easy
installation

Installing your Wall & Water will give you **instant satisfaction.**

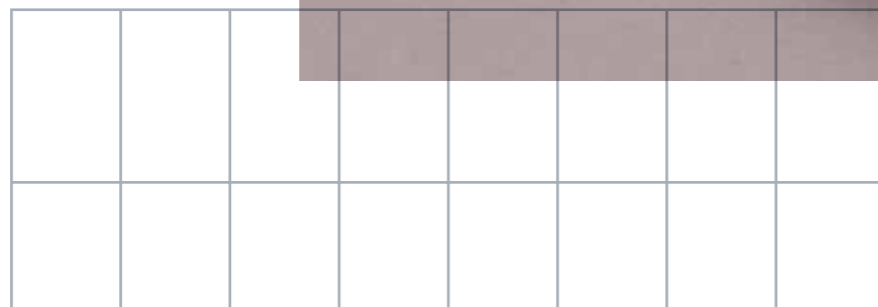

Glued or interlocking, our wall panels combine ease of installation with ease of maintenance. Wall & Water is the only system in the world offering you the look of a tiled wall this quickly and easily – all without the need for grouting.

1. Wall & Water panels are best mounted on a wooden frame. The panels interlock thanks to the unique locking system developed at our engineering department in Lyngdal, Norway. The result: a smooth wall with no visible joints. Your bathroom will be ready in a splash!

2. The panels can also be glued directly onto a solid wall. In this case, the walls must be absolutely straight and smooth.

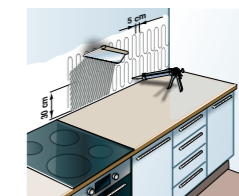

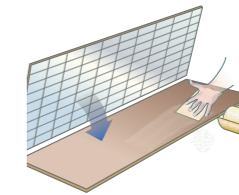

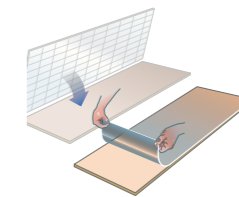

3. For walls with existing coverings of varying thickness (such as tiles halfway up), you can fix wooden boards of the same thickness and use BerryAlloc glue.

More detailed installation instructions can be found on our website or YouTube channel: berryalloc.com & youtube.com/berryalloc.

How to install your Kitchen Wall? Just follow these **steps.**

1. Remove the protective foil on the back of the panel and rub the back slightly with a 60-80 grit sandpaper.
2. Apply BerryAlloc Adhesive on the existing wall. Make sure to cover the entire area and spread out with a tooth spatula.
3. Remember to leave a distance of 2-3 mm between the panel and the kitchen countertop for sealant.
4. To make sure that the panel is not sliding, use something to keep the panel up. This can be:
Two spikes (levelled)
Two coins (levelled)
5. Remove the protective foil on the front of the panel before you continue with the next panel. That way you'll avoid any visual defects.

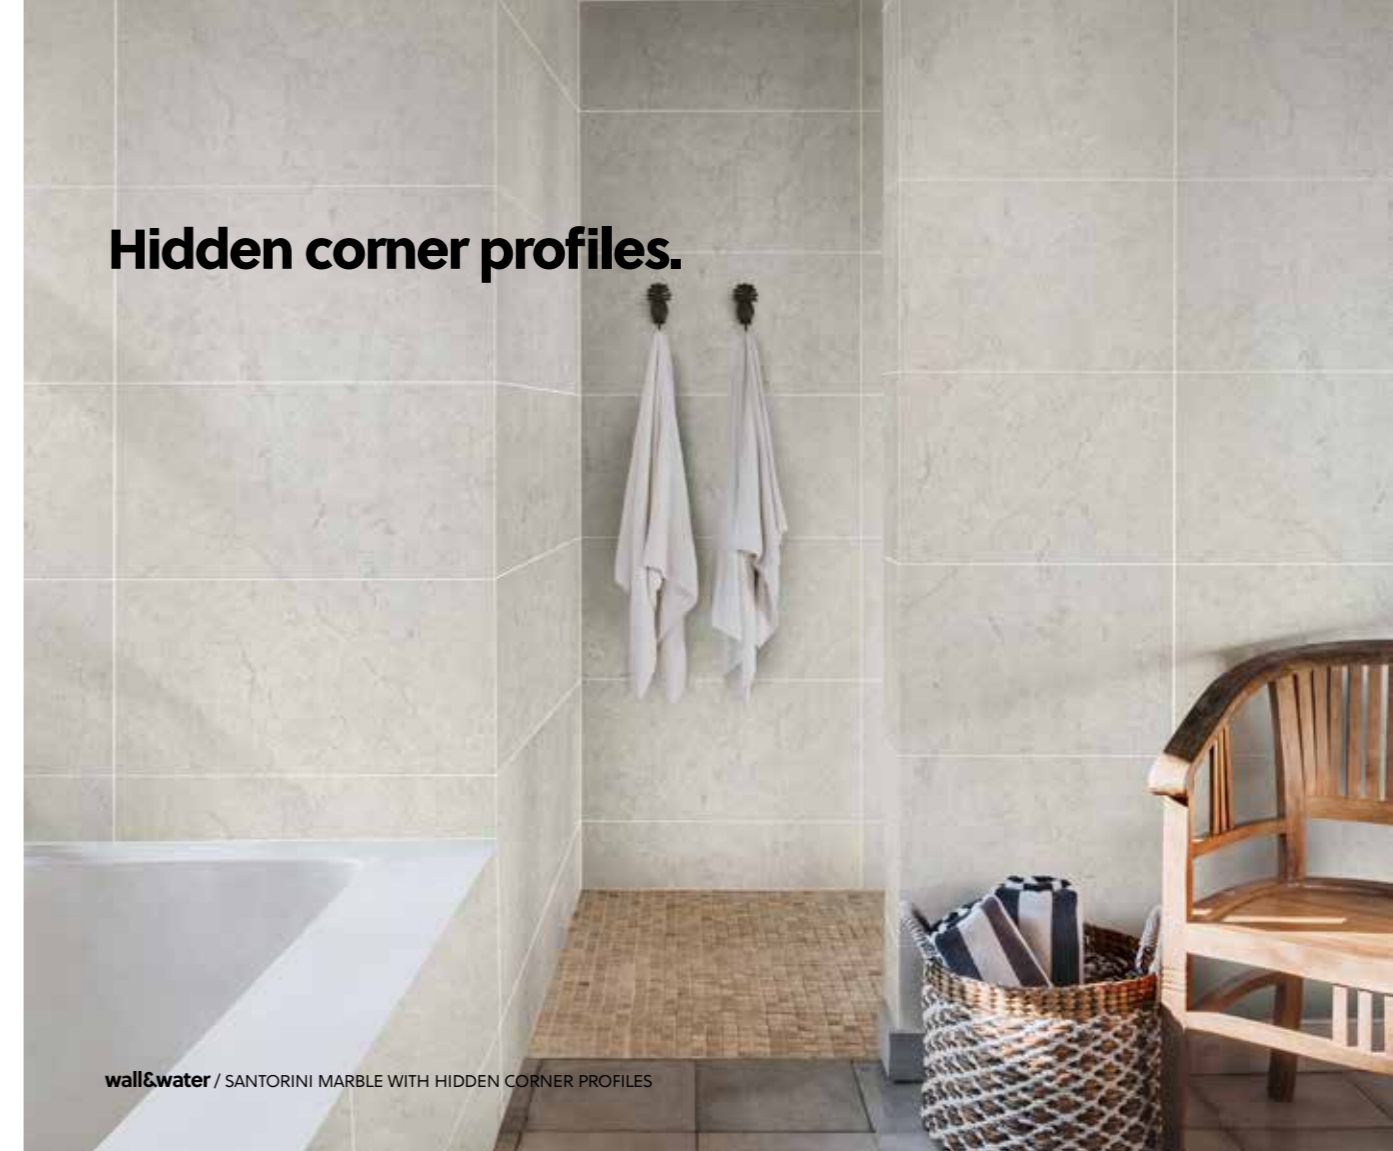

More detailed installation instructions can be found on our website or YouTube channel: berryalloc.com & youtube.com/berryalloc.

The difference is in the details.

BerryAlloc Wall & Water panels can be easily installed with our corner profiles.

What finish do you want?

Choose from white or aluminium-coloured profiles.
For an extra beautiful and natural look,
have a look at our hidden HydroLoc profiles.

Hidden corner profiles.

wall&water / SANTORINI MARBLE WITH HIDDEN CORNER PROFILES

Aluminium corner profiles.

wall&water / LIGHT SLATE WITH ALUMINIUM CORNER PROFILES

wall&water / CONCRETE WITH HIDDEN CORNER PROFILES

With the unique HydroLoc hidden corner solution you can give your Wall & Water panels a nice corner finish, making the walls look both natural and exclusive

Using this solution, the profiles would be fastened to the back during installation and will only leave a small visible grout line, similar to those used on the panels themselves.

Wall & Water accessories.

Use our accessories for a smooth and simple installation. The accessories seal the edges of the panels and provides an easy installation. Our accessories are approved for wet zones.
